

When I Grow Up...  
By: Katherine Nei

When I grow up, I want to be a teacher. Teachers help kids become successful in life. Teachers give kids moral support and confidence. Most of all, teachers help students learn. If there were no teachers, nobody would have a solid education. The internet and books don't teach students the way teachers do. Teachers encourage students and answer any questions the students have. Teachers give projects and homework to help the students apply their knowledge. However, the internet just states the facts. Every teacher feels good when their students succeed.

I wish I could become a teacher soon.
