

My Superpower

By: Charles Huang

2/21/08

I wish I had one superpower! If I had it, I would make a peaceful and wonderful world.

If I had one superpower, I would use it to let everyone to help and respect each other. First, I would let parents to give their kids tender love. Second, I would want kids to love and respect their parents and teachers. They would help their parents do some chores, follow their parents' and teachers' directions, and study hard to gain knowledge. Third, if somebody needs help, I would use my superpower to help him or her. I want everyone to live happily.

If I had one superpower, I would use it to get rid of all crimes. I would stop all the stealing, fighting, and war. I would let the whole world to be filled with love and peace.

If I had one superpower, I would use it to make sure everyone has food to eat and a house to live; every kid has books to read and has a school to attend; all the deaf can hear; all the blind can see; every disabled person can do everything by themselves; and everyone can stay healthy. I want everyone to live in a wonderful world!

I hope my superpower wish will come true.
